Re: Routine School Immunizations

April 7, 2026

To Parent/Guardian,

This is a reminder that Public Health will be coming to JR Reid School on **April 21, 2026** for second doses of routine school immunizations for grade 6 and grade 8 students (first doses were done in school on October 18, 2025). This will include vaccinations for Hepatitis B, Meningococcal Conjugate Quadrivalent (Men-C-ACYW-135), Human Papillomavirus (HPV), and/or Tetanus, diphtheria, acellular pertussis, and polio (Tdap/Tdap-IPV).

If you had signed a consent form for your child at that time and your child requires a second dose of vaccine, you do not need to submit a new consent form, as the consent forms are valid for one year from the time of signing. If your child did not receive an immunization at school, but you think they may require vaccines, please contact me by phone by April 17, 2026 to discuss same.

It is important on immunization day that your child eat a good breakfast and wear a garment with short sleeves. It is also helpful to remind students to be friends with each other, i.e. by not teasing or raising worries. Thank you for your cooperation.
